About This Game

Homeless Simulator 2 is a homeless person simulator. Homeless persons are those who find themselves living on the streets because of family conflicts, somebody's fraud, loss of the job or health problems. They are those who need help. It is easy to find yourself living on the streets, but it is practically impossible to get out of such a life without help. The scene of the game is a small town in wintertime. The main task is to survive in those terrible conditions. You have to constantly monitor your body temperature, your hunger and thirst levels, hide yourself from the wind, and find places where you can stay overnight.

this is an actually decent game. The game is up to the usual standard as set by the other games in the series.

An interesting story about Jesse James, but I liked Hary Houdini's and Mark Twain's better.

Though it does feel the game is shorter in play and doesn't have the extra mini games like find the bones or shackles as in the previous games, it is still an interesting game say 4/5.. this game has a really cool story!

9.5/10. the DLC does not appear in game?. Cons:

Plot essentially non-existent.

Diolog is terrible.

Gameplay is all right but nothing to write home about.

Even for Pixel Art, it's not very good.

Pros:

There's a power up called "Farts" that lets your "ball" fart on command.

Conclusion:

10/10, would fart again.

this♥♥♥♥♥good. Not enough to warrant purchase.

. I only played this game for about an hour at the moment but so far it feels very polished. The graphics are good and look crisp inside my Vive. The voice acting is pretty good and there is a story attached to the gameplay, I know having a real story isn't something everyone cares about especially in a fun VR game but I am someone who needs a story to stay invested in a game. The controls feel comfortable and although I played standing up it seems like it will be enjoyed more if you sat down while playing, preferably in a nice computer chair or recliner so you can match up with your in-mech position for extra immersion. The only thing that I have disliked so far is that it basically plays like an on-the-rail shooter. You do not actually move your mech around, you are automatically pulled along a set path while you look around and shoot the enemies around you. I will update this review after I have sunk a few hours into it.

. There are 60+ unique realms in this game. Lots of whimsical fun. Steep learning curve.

. Great buy game like game great want own Achievements now
